

# Mars Meteorite Compendium

## *under construction*

Originally composed in 1996, the MMC was revised and updated in 1998 and preliminary sections on new meteorites were added in 2001. The comprehensive bibliography has been updated several times.

In January 2003, the section on ALH84001 (Chapter X.) has been updated and sections XIV through XXVIII have been added. These revised sections are indicated by (ver. 2003) in their titles.

Since the author is in the process of composing further updates and revisions, he is willing to entertain proposed corrections, comments and/or new data.
